International Academic Credentials

University of California (UC) Approved

CASE Space School Programs are University of California (UC) approved as recognised College Preparatory courses in the USA. UC Approval demonstrates these courses are of high academic standard to prepare students for university-level studies. It ensures that CASE Space School graduates are identified by leading universities as high achieving, university-ready students.

Western Association of Schools and Colleges (WASC) Accredited

As a world-renowned educational evaluation and accreditation association, WASC, the Western Association of Schools and Colleges affirms a school or education provider is living up to its mission of offering an excellent education to students.

In the competitive landscape of university applications both domestically and internationally, students who complete CASE Space School Programs will differentiate themselves from other applicants.
